

# Mafia princess relocates to Boerne...

The hits keep coming

**M**oving from her childhood home, in 1996 Debi Lamb was looking for a fresh start and new business opportunities in the Texas Hill Country. She started a marketing and design *syndicate* serving clients from San Antonio Brady. But what is she *REALLY* doing here????

Born in New York State, Debra Rose Mastrangelo Lamb spent her formative years learning the intricacies of Buffalo's Sicilian neighborhood society. As the daughter of *legitimate* business man Ralph Anthony *Antn'y* Mastrangelo, believed by Buffalo authorities to be the architect behind the *Groundhog Day Massacre*, Debi found herself expelled from one girls Catholic School after another for reasons known only to the

Sisters of Mercy and noted only in her now *lost* records. Debi eventually graduated and went on to earn her degree from The State University of New York at Buffalo in communications, marketing and advertising. All surviving S.U.N.Y. faculty, familiar to Debi, stanchly refused comment when asked about her.

Debra Mastrangelo arrived in the Boerne area as Debi Lamb. The details of Ms. Lamb's witness relocation by the Federal Government only minimally outline her testimony in the Federal trial of Freddy *The Trout* Decarlo. Within 6 months, Lamb had moved into her current S. Main Penguin Suits storefront next door to book keepers Dianne and Michael Arthur. With a passion and flair all her own, Debi began to promote the Hill Country and area businesses, but Debi's darker side also had her promoting a shadier clientele. Because old habits die hard, Penguin Suits associate Boerne's Marble Slab Creamery became a *paisano* and helping to keep people on ice.

When the bodies really began piling up, Debi began working with local landscaping contractor Turf Masters. As business continued to blossom, she added *associates* Wallscapes Landscaping & Retaining Walls.- "Cousin Jimmy Hoffa fell into concrete, and look what it did for him," states the princess slyly.

Lamb keeps Dr. Michelle Berry of Allure Laser & Skin Clinic flush through constant image re-configurations. Lamb may not necessarily be a victim of her own vanity, but simply a master of disguise. Rumor has it that Debi first arrived in Boerne as a six-foot blond. Un-named sources also tell me that she's been a man at least twice prior to her current incarnation.

Given business advice by her Consigliere, Business Coach Pete Barrios, she keeps her self legitimate by investing extra funds and time sitting on board and volunteering for the worthy charities of the Moonlight Fund, Hill Country Daily Bread, and the Boerne Community Theatre.

**If** you want the *whole truth*, stop by Penguin Suits, have a meeting with *The Boss Debi*, and let us work on the story of your business.

**Penguin Suits, "Your Marketing Department," offers comprehensive marketing strategies, including branding, graphic design, and web capabilities.
